TLA-FAB-DOOR-01 Section 7 — **Container Fabrication / Repair**

CATEGORY 7
Container Fabrication / Repair

1 PRODUCT OVERVIEW

A complete replacement door assembly eliminates the complexity of sourcing and fitting individual door components when a container door is damaged beyond repair. Each assembly includes the corrugated corten steel door leaf, a full hinge set (blade, pin, washers and lug), locking bar with forged cam and keeper, door handle, and rubber perimeter weatherseal — pre-fitted and ready for installation. Compatible with standard 20ft General Purpose (GP) ISO containers. Specify left-hand (LH) or right-hand (RH) orientation at time of ordering — LH is standard; RH available with extended lead time. Contact Twistlock Africa to confirm current availability and lead time before committing to project timelines.
